DETAILED ACTION

This Office action is in response to applicant's amendment filed on 07 June 2005.

Allowable Subject Matter

1. Claims 13-24 are allowed.

2. The following is an examiner's statement of reasons for allowance:
 - Claim 13 is allowed because the prior art of record does not teach or suggest, in combination with the other claim limitations, a plug that comprises a main conductive film that includes copper as a main constituent element and an adjacent conductive film formed outside the main conductive film, wherein the adjacent conductive film includes ruthenium, iridium, or osmium as a main constituent;
 - Claims 14-15 are allowed because the prior art of record does not teach or suggest, in combination with the other claim limitations, a plug that comprises a main conductive film that includes copper as a main constituent element and an adjacent conductive film formed outside the main conductive film, wherein the adjacent conductive film includes rhodium, ruthenium, iridium, osmium, or

platinum as a main constituent and palladium, cobalt, nickel, or titanium as an additional constituent;

- Claim 16 is allowed because the prior art of record does not teach or suggest, in combination with the other claim limitations, a connection layer that comprises a main conductive film that includes copper as a main constituent element and an adjacent conductive film formed outside the main conductive film, wherein the adjacent conductive film includes ruthenium, iridium, or osmium as a main constituent;
- Claims 17-18 are allowed because the prior art of record does not teach or suggest, in combination with the other claim limitations, a connection layer that comprises a main conductive film that includes copper as a main constituent element and an adjacent conductive film formed outside the main conductive film, wherein the adjacent conductive film includes rhodium, ruthenium, iridium, osmium, or platinum as a main constituent and palladium, cobalt, nickel, or titanium as an additional constituent;
- Claims 19-21 are allowed because the prior art of record does not teach or suggest, in combination with the other claim limitations, a gate electrode that includes rhodium, ruthenium, iridium, osmium, or platinum as a main constituent and palladium, cobalt, nickel, or titanium as an additional constituent;
- Claim 22 is allowed because the prior art of record does not teach or suggest, in combination with the other claim limitations, a gate electrode that includes a
